

# GANGCHEN SAMLING SCHOOL.

Anandapur, Boudha-06, Kathmandu,  
Nepal.

Ref :-

Date :-

23<sup>rd</sup> April, 2013

Dear Mr. Frank Erbach,

Thank you for your donation [REDACTED]. We are extremely grateful to you and your company Arge-Haus Rhein-Ruhr for this contribution which will be used for the education of the children of our school Gangchen Samling School. It is because of the support of like minded individuals and groups like yours that we have been able to come this far.

Our school was established in 1993 for the main purpose of providing opportunities for the children of low-income families and orphans residing in the vicinity of Tinchuli in Kathmandu, Nepal. Most of the children's parents work in carpet factories and other occupations requiring hard labor which makes it difficult for them to make ends meet. With this non-profit initiative we aim to provide these children an education that will ensure that they can support their families in the future with better job prospects and also to be socially and morally better individuals.

In Nepal, the minimum requirement for any job is an SLC or a School Leaving Certificate which is equivalent to a Class 10 pass. These days with the increasing competition in the job market most companies require even higher qualifications. We seek to ensure that our students can at least complete their SLC so they may be able to compete amongst their peers and become independent, thereby relieving their families of financial responsibilities and also contribute towards the collective family incomes. Our system is based on one that gives these children the basic tools i.e., education and a healthy environment to grow and become responsible individuals.

Our new project which is the construction of a few more classrooms will provide these children an education upto Class 10. This will give our students the optimum benefits in moving forward in society. With your kind and generous support this will be made possible from this academic year onwards. Our students can have the same opportunities now as other students. Achieving this goal not only makes all of us, the teachers and all board members at Gangchen Samling School very proud but also very content in our hearts in taking part in this educational development.

Thank you for participating in our project and making our dream come true at Gangchen Samling School.

Yours sincerely
